

SUSTAINABILITY POLICY STATEMENT

Bachy Soletanche Limited is committed to operating in a socially and environmentally responsible manner throughout its operations, and to continuing to improve its performance. Combining skills of geotechnical and environmental engineering, the company makes a positive contribution towards sustainable development.

The policy has been approved by the Board and will be reviewed annually by the Sustainability Working Group. It is supported by a number of other policies such as our health and safety policy, environmental policy, equal opportunities policy and training and development policy.

As a responsible company we will:

- Comply with all relevant legislation.
- Adopt sound business ethics and continue to provide a high quality service efficiently and profitably.
- Maintain our internal management systems for quality, health & safety and the environment.
- Work towards reducing our carbon footprint.
- Set Key Performance Indicators (KPIs) for environmental, social and employment issues against which we can measure our progress.
- Engage with our peer group through membership of appropriate organizations.
- Review our supply chain with regards to sustainability.

As a trusted employer we will:

- Minimise the risk of accidents and work-related ill health for our employees and proactively seek to improve performance.
- Employ a diverse workforce and ensure all personnel are treated equally.
- Continue to provide statutory and career development training to our staff to enable them to fulfill their potential.
- Seek to promote sustainability within our workforce through regular and varied communication on the issues involved, and encourage dialogue within the employee forum.

As a designer and contractor we will:

- Identify any sustainability issues, or opportunities for improvement, at an early stage and seek to work with the client to improve the sustainability credentials of the scheme.
- As appropriate demonstrate sustainability benefits during the tender process and continue to influence sustainability issues during the construction process.
- Continue to invest in research and development with an aim to develop more sustainable techniques and products.
- Minimise the use of energy, materials and water.
- Avoid adverse impacts on land, air and water and minimize waste generation.

As part of the community we will:

- Establish, maintain and strengthen existing relationships with local schools and academic institutions.
- Wherever appropriate, employ from the local area.
- Be a considerate neighbour during site operations by minimising the environmental impacts of the site.
- Seek opportunities to engage with local communities surrounding our principal offices and major sites.

In support of achieving the above policy, Bachy Soletanche will engage with its parent companies, customers and other stakeholders in promoting sustainable development.
